1. Report Conversion

In our continued efforts to standardize our reports, the following two pending reports are made available in PDF and HTML formats.

- a. Time And Attendance Tracking --> Child Time Card Details --> Print Child Time Card
- b. Staff Management --> Staff Absence Details --> Print Staff Absence

2. Printing Time Cards for Inactive Children

You will be now able to print time cards of inactive children.

Newly introduced **Child Status** filter will help you to select the child(ren) by their status. Default child status is **Active**.

At the bottom of the form, there is a checkbox labeled "Show Work Address" which is currently unchecked.

4. Bug Fixes and Enhancements

The following bug fixes and enhancements have been included in this release:

Emails Account Statements - After the user has clicked on "Submit" button on the last page, the landing page should be the homepage as in Email Families.

Multi-location users should be able to **add Family Notes**.

Family Notes link is also made available in Account Ledger page.

Company Super Users should be able edit contact name in Administrative functions which can contain **numeric**.

Prev/Next is throwing error in Child Info page when Family Acct Key or Child Name contains single quotes when child records are navigated via **Select** function. This has been fixed now.

Track Staff Movement between Classrooms – An error was occurred on remote scenarios when the staff is moving between classrooms. This has been fixed now.

Family Account Activity Report – Deviated alignment got fixed
